**Index Terms**—component, formatting, style, styling, insert

## I. INTRODUCTION

Introduction provides background information for the research and what the project is about.

## II. EASE OF USE

### A. Maintaining the Integrity of the Specifications

This is a test for practice.

## III. PREPARE YOUR PAPER BEFORE STYLING

Format Practice Test

### A. Abbreviations and Acronyms

Abbreviations

### B. Units

LaTeX allows the use of many different units and allows for easy display of units.

### C. Equations

LaTeX can easily display math functions and equations.

$$a + b = \gamma \tag{1}$$

### D. ~~LaTeX~~-Specific Advice

Make sure to cite and give credit to authors. Summarize and state authors' words and cite the author that the information was gathered from.

### E. Some Common Mistakes

Common Practice is to proofread work. Make sure citations and summarization are proofread and correct to the standards.

### F. Authors and Affiliations

Make sure to cite and reference authors and affiliations.

### G. Identify the Headings

Headings are used to identify paragraphs in the paper.

### H. Figures and Tables

Tables are used for display information and data.

Identify applicable funding agency here. If none, delete this.

TABLE I  
TABLE TYPE STYLES

Table Head	Table Column Head		
	Table column subhead	Subhead	Subhead
copy	More table copy <sup>a</sup>		

<sup>a</sup>Sample of a Table footnote.

Labels can be used with any font, but stick with Font 12 size as standard.

## ACKNOWLEDGMENT

Make sure to acknowledge any people associated with the paper.

## REFERENCES

Please make sure to reference and list authors information was gathered from.
